

Benefits of MCES Lift Station and Force Main Improvements:

- Accommodate the current and projected future wastewater flows from the lift station service area.
- Increase the useful life of lift station
- Relocate the forcemain discharge point to reduce capacity constraints in the existing interceptor sewer along 84th Street.
- Improvements will not be assessed

Reason of Stanley Road/84th Street Sanitary Sewer Diversion Improvements:

- Divert flow from the interceptor sewer that runs east along 84th Street and reduce capacity constraints in the interceptor sewer.
- Improvements will not be assessed

**84th Street Area Improvements
Lift Station, Sanitary Sewer, and Force Main Improvements**

- Legend**
- Sanitary Manhole
 - Force Main Manhole
 - Lift Station
 - Proposed 8" Sanitary Sewer
 - - - Proposed 16" Force Main
